SOLAR ROLLER

SHUTTER KIT

Solar-powered aluminium system

Cut to size. Ready to install.

SOLAR-POWERED ROLLER SHUTTER

A flexible solution for professional installation

The PERSAX Cut-Out Solar Roller Shutter is supplied ready for cutting and assembly. The system combines an aluminium roller shutter with solar panel, battery, motor and PERSAX radio control.

Its cut-to-size configuration allows the shutter to be adapted on site to the opening, with a minimum cut-down width of 800 mm. Three installation positions provide flexibility for existing facades.

CUT-OUT SOLAR ROLLER SHUTTER

PRINCIPAL ADVANTAGES

SOLAR SYSTEM

Panel and battery included.

CUT TO SIZE

Minimum width: 800 mm.

RADIO CONTROL

15 channels + channel 0.

GREATER COMFORT

Natural external shading.

LOWER ENERGY DEMAND

May reduce air-conditioning use.

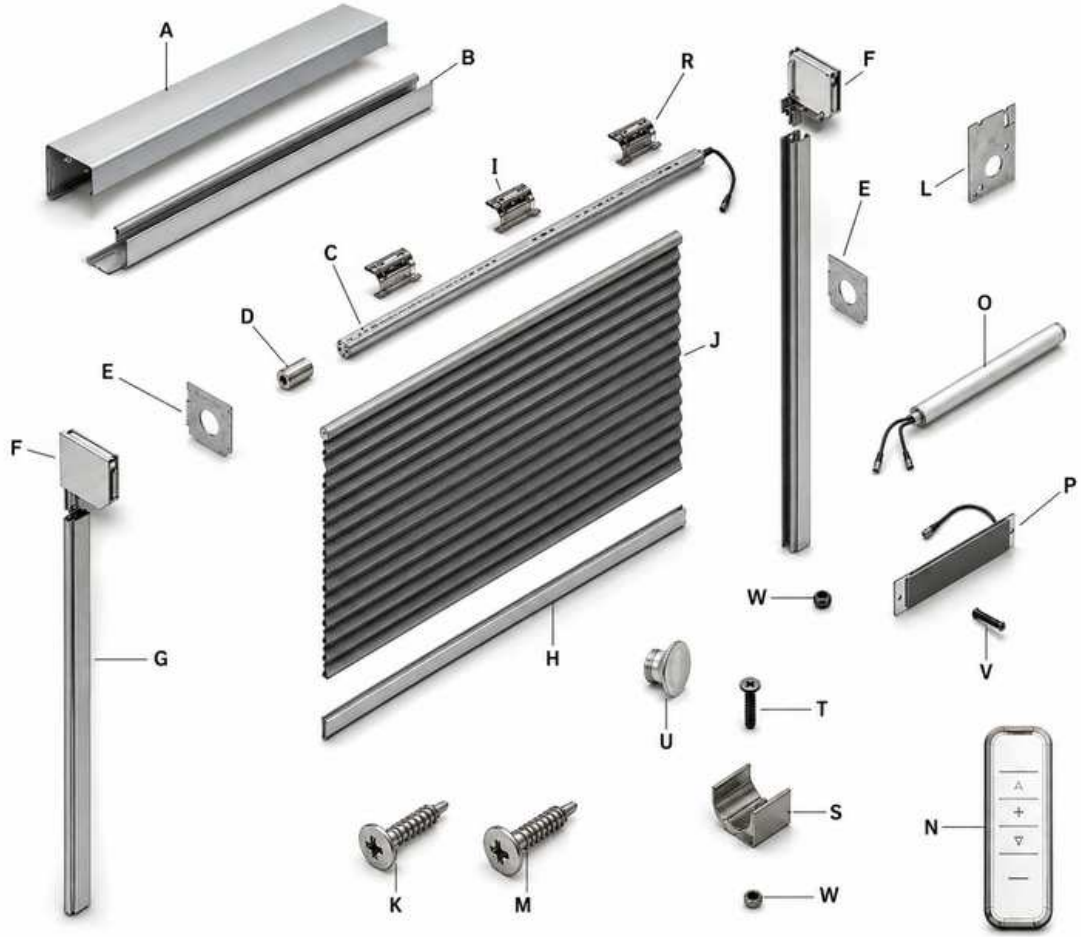

ALL-YEAR PROTECTION

Shading, privacy and enclosure.

ABOUT PERSAX

PERSAX is a Spanish manufacturer of solar protection and closure systems with 50 years of experience. We develop reliable solutions for professional installation, combining industrial expertise, quality and comfort.

PRODUCT NOMENCLATURE - EXPLODED VIEW

Component identification corresponds exactly to the nomenclature supplied with the product.
