

NEW MODEL 2016

PVC BOX MAX

Facing the need to a PVC shutter box that could make possible the installation of a large dimensions' roller shutter, Persax decided to introduce the new Max box

“It allows to cover and protect large dimensions windows with a high capacity of rolling”

PERSAX
GRUPO

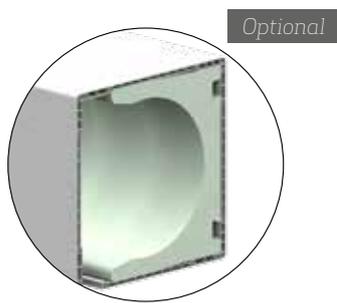

PVC BOX MAX

The new **Max shutter box**, consisting in 4 PVC profiles, is the perfect solution for large dimensions rolling shutters.

Two sizes available to a better rolling of slats make it perfect to **cover large surfaces**.

The lacquered option enable an excellent integration to colors woodwork.

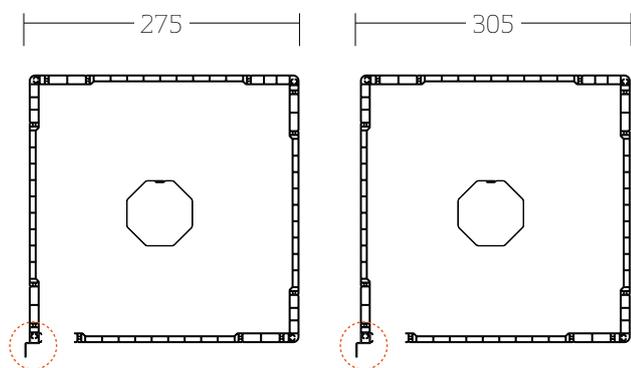

The possibility of polyexpan gives a **better thermal and acoustic isolation**.

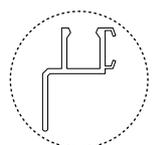

Insulating poliexpan (expanded polystyrene)
